Mr. Merrill S. Hohman, Director
Waste Management Division
United States Environmental Protection Agency
Region I
John F. Kennedy Federal Building
Boston, MA 02203-2211

WASTE MANAGEMENT DIVISION

Dear Mr. Hohman

The request from the United States Environmental Protection Agency was sent to New Franklin Junior High School, Portsmouth, New Hampshire. We do not have a New Franklin Junior High School. We have a New Franklin Elementary School, part of which burned to the ground in the fall of 1983.

Waste material was removed from this school by contract with Jones Destruction of New Hampshire, Inc.

During my time as Superintendent of Schools (since September 1974), we have not removed any material except for New Franklin School. I hope this is helpful to you in your review of the Coakley landfill in North Hampton.

Schools in New Hampshire are built, or in this case rebuilt, by what is known as a joint building committee. Half the members of this committee are appointed by the Mayor of the City and the other half by the Chairperson of the School Board. They have the responsibility for completing whatever tasks the City or School Board gives them. In this case it was the rebuilding of the burned out portion of the New Franklin School.

Enclosed is a contract signed by the joint building committee and Jones Destruction. Our records do not show where the burned material was dumped. Other people involved are mentioned in the contract. I do believe that it was not specified as to where Jones Destruction would dump their material. I personally do not have any idea where it went. Please contact me if other information is needed.

Sincerely

Timothy F. Monahan
Superintendent of Schools
